

Günter Grabner

Managing Partner

Günter Grabner is the founder and one of the managing partners of PV-Invest with over 30 years of experience in international financing. Since its foundation in 2009, PV-Invest stands for the generation of energy from sustainable sources. The company develops innovative investment models for private and institutional investors with the aim of building highly profitable photovoltaic power plants together with banks and financial institutions.

The business administration graduate from the University of Graz is a well-respected financial expert with over 14 years of experience at Austria's largest bank, where he held various management positions in Vienna, New York and Carinthia. He was responsible for key account management for both private and commercial customers, for national and international risk management, consolidations, as well as acquisitions and restructurings. During this time, he gained extensive knowledge in the entire financial and banking industry.

Before founding PV-Invest, Günter Grabner, based on his extensive experience in the financial sector and his international network, operated a consulting company for small, medium and large companies and became a certified consultant to the Carinthian Economic Promotion Fund. He is now fully dedicated to the sustainable growth of PV-Invest.
